

HEAVY DUTY OIL STABILIZER

PART #2525

BENEFITS:

- Will not void new car warranties when used as directed
- 100% petroleum-based product
- Blends with all automotive lubricants including ATF, synthetic, and mineral oils
- Keeps old engines alive and new engines new
- Treats the oil and the metal
- Reduces friction in the engine
- Eliminates engine dry starts
- Cools and quiets engines and gear boxes
- Increases fuel mileage

- For that extra protection needed in four-cylinder and high-performance engines, **MOTOR PURR HEAVY DUTY OIL STABILIZER** is ideal
- This special product is a premium, 100% petroleum-based, full formulated oil stabilizer that decreases harmful friction and engine wear, while increasing oil pressure and compression
- Use **MOTOR PURR HEAVY DUTY OIL STABILIZER** in semi-trucks, motor homes, SUV's, tractors and other heavy-duty farm and earth-moving equipment
- **MOTOR PURR HEAVY DUTY OIL STABILIZER** is many times thicker than regular motor oil and provides a layer of protection several times greater than standard motor oil. This product blends with all automotive lubricants: synthetic and mineral oils. This greater oil viscosity helps improve oil pressure, increase engine compression and improve gas mileage

INSTRUCTIONS FOR USAGE:

- Add **1 Quart** of **MOTOR PURR HEAVY DUTY OIL STABILIZER** in any 3 to 6-quart system at every oil change or between oil changes as needed.
- **To control rattles, leaks, heat, wear, and hard shifting in manual transmissions:**
 - Light Duty Transmissions: use **25%**
 - Heavy Duty Transmissions: use **20% to 50%**
- **To reduce noise, wear, and limited slip:**
 - Differentials: use **50% – 100%**
 - Transfer Cases: use **50%**
 - Motorcycles: use **25% – 30%**
 - Air Compressors: use **20% – 25%**
 - Stationary Motors: use **20% – 25%**
